

We believe that every person possesses a special quality, known as charism, that is as unique as a fingerprint. When this quality is cultivated, the person is more likely to accomplish the extraordinary.

We believe in doing everything we can to help individuals and organizations access their charism and achieve their highest personal and professional aspirations.

WHAT WE DO

Since 2003, St Fleur Consulting has provided technical expertise to organizations in the United States and over 40 countries in Africa, Asia, Latin America, and the Caribbean.

Our core purpose is to successfully partner with leaders and employees with the desire to produce high quality outcomes by thinking strategically and acting decisively.

We consistently achieve success for our clients and ourselves by...

- φ Curating the brightest producers, and idea generators.
- φ Remaining lean and agile in order to keep innovating.
- φ Evaluating result as well as process and relationship.

WHY WE ARE SUCCESSFUL

We use the following approach to support organizations facing intensifying pressure to remain competitive.

Evaluate and Assess

We begin by appreciating what works and by staying curious and open until we identify the source of the problem.

Understand data as well as we do people

We practice discipline in respecting the facts, opinions, and feelings of our clients and their stakeholders.

Work in the present; aim for the future

We don't underestimate the impact of our choices or actions. We continually scan for new or unintended consequences.

CERTIFICATIONS

- | | |
